● AST% (2P) ● AST% (3P) ● AST% (FT)

The chart displays the relationship between T0% (x-axis) and AST% (y-axis) for various players. The x-axis ranges from 0.05 to 0.30, and the y-axis ranges from 0.0 to 0.4. A diagonal line separates the chart into two regions: a green region above and to the left, and a pink region below and to the right. Bubbles represent individual players, with their names labeled next to them. The size of the bubbles varies, and the colors are diverse. Key players like Milos Teodosic and Sergio Rodriguez are in the top right, while many players are clustered in the bottom left.
